Summary

Computer Science graduate with hands-on experience in Python, and web development. Skilled in building simple, user- friendly web applications. Comfortable with database and basic data structures, and eager to grow in a professional environment.

Education

LNCT University Bhopal | Bachelor of Computer Science(BCA) | Pursuing (Current year – III Year)

12th | Govt higher Secondary School Patharaula , Dist- Sidhi (MP) | Arts | 71 %

10th | Shree Ganga Public High School Patharaula , Dist- Sidhi (MP) | All Subject | 73%

Coursework

• Data Science • Database Management Systems • Object-Oriented Programming (OOPs)

Technical Skills

Programming: Java, Python , C&C++with(OOPs) **Frontend :** HTML, CSS, JS **Backend:** JSP, Servlet, Spring Boot Tools &

Platforms : VS Code, Eclipse/IntelliJ IDEA **Concepts :** Object-Oriented Programming (OOP), DBMS, Operating

Database: MySQL **Systems, Data Structures & Algorithms (Basics)**

Projects

1) College Management Web Application (Spring Boot)

Technologies: Spring Boot, Java, HTML, CSS, JavaScript, MySQL

- Built a full-stack college management web application with secure login for students, faculty, and admin.
- Developed student registration, course management, and profile management modules.
- Implemented attendance tracking, timetable management, and subject/course allocation features.
- Created an admin panel to manage students, faculty records, courses, and academic activities efficiently.
- Designed a clean, responsive user interface for easy navigation and better user experience.

2) Airline Reservation System (Java - Console Based)

Technologies: Java, OOP, File Handling

- Developed a console-based airline reservation system to manage flight bookings, cancellations, and passenger records efficiently.
- Implemented core functionalities such as ticket booking, seat availability checking, fare details, and reservation management using Object-Oriented Programming concepts.
- Used file handling for storing and retrieving passenger and booking data, ensuring data persistence and structured record management.
- Designed a menu-driven interface for smooth navigation and user-friendly operation.
- Applied concepts like classes, objects, inheritance, and exception handling to improve system functionality and reliability.

Internship

1) Learning Education Hub, Bhopal — Software Development Intern

- Gained hands-on experience in full-stack development using Java, MySQL, HTML, CSS, and JavaScript through practical implementation.
- Developed mini projects and assisted in real-time assignments under mentor guidance.
- Improved problem-solving, debugging, and web development skills by working on frontend and backend tasks.
- Built practical understanding of database connectivity, project structure, and application development workflows.

2) Ypsilon IT Solutions, Indore — Python & Django Intern

- Gained practical experience in Python programming and Django framework through guided training and project-based learning.
- Developed mini web applications and assisted in real-time assignments focused on backend development.
- Enhanced skills in debugging, problem-solving, and web application development.
- Strengthened understanding of Django architecture, database integration, and deployment basics.

Expression

1) Sanjay Gandhi Memorial Autonomous (SGS) College, Sidhi, Position – Computer Operator (Trainer) | 2 Month

2) Govt. Girls College Sidhi, Position – Computer Operator(Library Data Entry) | 6 Month

3) Learning Education Hub Bhopal, Position – Junior Developer | Aug 2025 – Feb 2026

Certifications

- Python Full (Basic) – Basic .
- Java Programming & MySQL – Certified in core Java concepts .
- C&C++ with (OOPs) Programming Language – Certified .
- Spring Boot – Basic

Soft Skills

- Teamwork • Time Management • Problem-Solving
